If you have an old piece that is broken, that you think is rare, be sure and save all the pieces, as we may buy it in any condition at some price. If not too far away our agent will call and fix a price, otherwise you should give a good description—form, size, and color, (whether light or dark shade,) and a rough drawing when possible. If any marks on bottom of piece, be sure and describe same, giving maker's name, etc.
